Certifications and Licenses

NPTEL-Joy of computing in python

May 2025 to Present

NPTEL Certification – Joy of Computing using Python

Completed an online course offered by IIT under NPTEL that introduces the fundamentals of computing using Python. The course covered key concepts such as problem-solving through programming, simple algorithms, data handling, and logic building. Gained hands-on experience with Python to build creative applications like games, animations, and data visualizations. Developed a strong foundation in computational thinking and practical programming skills.

TCS iON Career Edge – Young Professional Program

May 2025 to Present

TCS iON Career Edge – Young Professional Program

Completed a 15-day career readiness course designed to enhance essential professional skills. The program focused on business etiquette, communication, presentation, soft skills, interview readiness, and resume writing. Also covered basics of accounting, artificial intelligence, and corporate behavior. Improved self-confidence, time management, and workplace professionalism.

Alison – Online Learning Certification

May 2025 to Present

Alison – Online Learning Certification

Successfully completed self-paced online courses on the Alison platform, focusing on professional and technical skill development. Topics included time management, digital skills, entrepreneurship, and workplace communication. Enhanced both analytical thinking and productivity through globally recognized certification content.
